

# Health Task Group

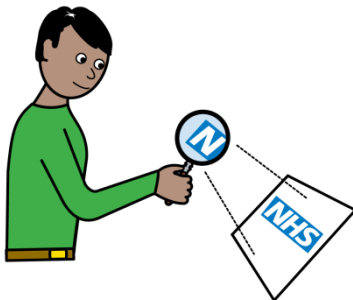

## What we do

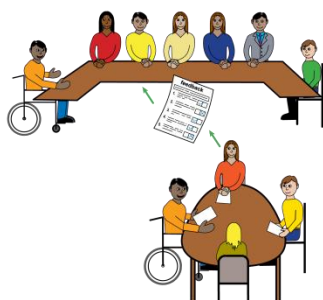

We will work together to help make health services better for people with learning disabilities.

We will tell people about things services do to help people have good health.

We will find out what organisations can do to make health services better.

We will tell the Partnership Board and others about what we find out about services.

## **Terms of Reference**

### **Health Task Group**

#### **Membership**

Improvement Manager Learning Disabilities – NHS Leeds  
Lead Therapist – Leeds & York Partnerships Foundation - NHS Trust  
Community Nurse – Leeds & York Partnerships Foundation NHS Trust

#### **Mission Statement**

*The Health Task Group is a sub – group of the Leeds Learning Disability Partnership Board and aims to support and influence the development of an inclusive culture of good health for learning disabled people in Leeds with partner agencies and organisations.*

#### **Scope and Remit of the Task Group**

The Task Group will promote good health for people with learning disabilities through;

- Agreeing and identifying priorities relating to health inequalities experienced by learning disabled people
- Identifying barriers or gaps in supporting learning disabled people to have good health
- Identifying, sharing and promoting good practice within the group and determine pathways to ensure such is implemented within health and social care organisations and agencies
- Promote an evidence based approach to tackling barriers and gaps in health care provision
- Receive reports from key members to identify progress on the SHA Learning Disability Self Assessment and Performance Framework health targets
- Provide reports and updates to the Learning Disability Partnership Board on the progress of the Task Group

#### **Meetings**

The group will meet on a 6 weekly basis

#### **Review**

The terms of reference and membership will be reviewed annually
